LARGE DUAL AIR INTAKES

KEEP IT MOVING

Built with a front and rear air intake. Housing is aerodynamically designed to optimize intake without causing turbulence.

Reliable Performance and Smooth Operation

Heavy-duty blower construction ensures years of dependable service and worry-free performance. The 18-inch, 6-blade impeller is dynamically balanced for smooth operation. The impeller is fitted with a tapered locking hub.

MASSIVE AIR OUTPUT 8150+ CFM

Up to 8510+ effective CFM for amazing ground clearing power on a wide variety of surfaces and applications. Surfaces and Applications

NOZZLE DIRECTION SYSTEM

DUAL HORIZONTAL ROTARY CONTROL

The nozzle orientation system allows for up to 180 degrees of rotation

VERTICAL TILT CONTROL

Adjust the tilt of the discharge nozzle up to 16 degrees, lower to help loosen and blow off stubborn debris, or higher to prevent blowback.
